

# ADVANCED COACHING SKILLS

TAKING YOUR BRAIN-BASED COACHING SKILLS TO THE NEXT LEVEL

## DID YOU KNOW?

- Coaching cultures highly correlate with high levels of employee engagement, retention, trust and performance
- Millennials don't want 'bosses', they want 'coaches'
- 95% of our work conversations 'tell and instruct' yet we know that our brains resist when being told what to do....!
- 9 out of 10 conversations don't hit the mark!

## WHO IS THIS PROGRAM FOR?

This highly interactive program is designed to fast track smart, busy professionals and coaches to think, coach and collaborate in different ways.

You will be able to immediately apply novel, brain-friendly tools and proven techniques for impactful coaching conversations with individuals.

This coaching approach creates positive change for individuals, groups and teams, and will help you to show up to conversations as a better coach and a better leader.

## PROGRAM OUTCOMES

- To improve coaching competency for everyday professional conversations
- To expand your coach's toolkit with new models, process and techniques
- To introduce a structured methodology for coaching individuals over time, including a masterful goal setting process and developing a strategic pathway for your client or employee to achieve their goals
